March 18, 2010

To all our Valued Customers:

SIP Industries is pleased to announce our new *Joint Restraint* product.

SIP Industries has acquired the Joint Restraint product line of Cape Fear Industries which was in the business of manufacturing and selling Joint Restraints for DI Pipe and PVC Pipe.

At the current moment we have the following sizes in stock:

DI Pipe Restraints – 3” – 12”, 16” and 24”

PVC Pipe Restraints – 3” – 12”

These products will be sourced both domestically and globally so we can meet all your needs. We are developing the entire size range and look forward to having the missing sizes in stock in the next few months.

For the last 50 years SIP’s goal has been to be a reliable and a complete source for your waterworks needs.

We hope the introduction of the Joint Restraint product will help us serve you more effectively and offer a complete solution.

Once again we thank you for your continued support and we look forward to a great future.

Regards,

Bharat Agarwal
VP Business Development
